JOINT NOTE FROM BOARD MEMBERS

We are pleased to share that your generous support is helping us make a real difference in the lives of cancer patients through our collaboration with CIMS Hospital and the Nag Foundation.

In the last six months , our foundation has extended ₹4.85 lakhs in financial support to the underprivileged patients battling life-threatening illnesses.

Through our monthly contribution to the Nag Foundation, we continued to support to stand by cancer patients who lack access to adequate treatment. .

In the remote high altitude region Leh and Ladakh with the support of Prayas and Department of Health Leh we have planned a Screening, Education and Preventive care a massive barrier to life saving healthcare leaving the women highly vulnerable and the total project budget for this drive is INR **18,90000/-** we need your support for the success of this drive

In the last six months, **CIMS** has successfully treated 12 cancer patients suffering from: Breast Cancer and CA Stomach.

The **Nag Foundation** is committed to transforming health-seeking behavior in communities by addressing early cancer diagnosis, a leading cause of cancer-related deaths in India.

Their Key Initiatives Include:

- Awareness campaigns on signs, symptoms, risk factors, and treatment pathways
- Screening campsfor Oral, Breast,and Cervical cancer(for both men and women)
- Financial aid for:
 - o Surgery o Chemotherapy o Radiation o Herceptin o Immunotherapy
 - Lymphedema therapyusing an in-house machine· Ongoing CME programs and cancer research projects

Nag Foundation

LLLLCF continues to support Nag Foundation towards Patient Aid.

From January to April 2026, the Nag Foundation has helped patients for various treatments of Chemotherapy, Herceptin (Trastuzumab), Surgery and Radiation.

We have provided financial aid to the following with support from Live Life Love Life Charity Foundation.

US age 56yrs was diagnosed with Ca Rectum. He worked as an Electrical supervisor in Finolex Plastrax but lost his job, His wife is a primary teacher. He has one son, 20 years old and is studying. He has had 2 surgeries and chemotherapy and radiation. His treatment has left him weak, because of which he is unable to resume his work. He has been greatly supported by his extended family,

VS Age 43 years has Ca Tongue. He and his wife have 2 children. They stay Choufulla village, 32 kms away from Pune. He makes a living by selling vessels from village to village. Before his diagnosis, he complained of recurrent mouth ulcers, the local physician after initial treatment then referred him to Ruby Hall clinic. Biopsy confirmed CA Tongue. His family were able to raise money to cover the surgery charges, however they were unable to raise money for his further treatment. He was referred to Nag Foundation, and considering his age and prognosis the foundation sponsored his chemotherapy. He has finished chemotherapy & radiation therapy and is slowly getting back to normal.

Nag Foundation Activities for the period from January 26 to April 2026...

KL. 49 yrs coming from a farming family Stays in Mandavgan, zilla Ahilaynagar. , she has 3 children. She works both at their fields as well as for other farms.to supplement their family income. In April 2025 she felt a lump in the left breast and went to the local doctor, he referred her to a bigger hospital. The initial diagnosis was Breast cancer suspicious, which was later confirmed via biopsy. She was referred to Dr Anupama Mane & Dr. Shona Nag. She has finished her recommended treatment of chemotherapy, radiation and Surgery. Financially she was unable to take treatment. The help got from the Foundation has enable her to complete her treatment. She has just finished her treatment and is on her way to recovery.
