

## Joint Note from Board members :

The last quarter for Live Life Love Life Charity Foundation has been extremely successful. Like every quarter, many women have been screened and treated by Care India Medical Society. Free chemotherapies dispensed and the new hospital wing being readied to help more patients. 922 women alone were screened by Prayas this quarter. Oral cancer camps and Oncologist consultations for Awareness workshops were held by NAG Foundation. In the last quarter, Prayas, with the help of Live Life Love Life Charity Foundation, took the initiative of dubbing two hindi films on cervical cancer prevention awareness in Hindi with English subtitles to spread the word amongst more and more girl school and college children which collectively generated 1000 views. Also, as a part of a new initiative, Prayas and Dr Srinivasan of WHO, has felt the necessity to evaluate the feasibility and accuracy of Colo-rectal Cancer screening implemented through public health services as a potential CRC prevention and control initiative in the country. Live Life Love Life Charity Foundation has donated INR 500,000/- for this project and is committed to raise additional funds for this research project and Live Life Love Life Charity Foundation could not be thankful enough for being a part of such a great initiative. We are in deep gratitude towards all our donors, who have come forward to generously donate for all these cause and also towards our beneficiaries who are doing an excellent job.

- Praful Chandawarkar and Suraj Repe

## CIMS (Care India Medical Society)

The amount donated from Live Life Love Life Charity Foundation was utilized to buy the following equipments for this & previous quarter :

- Defibrillator (for Day Care Centre For Chemotherapy) : Rs 2,24,000
- Auto Analyser (for Matruseva clinic laboratory) : Rs 1,00,000
- Cell Counter (for Matruseva clinic laboratory) : Rs 3,42,000
- Cardiac Monitor : Rs 85,000

## PRAYAS HEALTH GROUP

### Prayas - Highlights for April 2018 to June 2018

#### **(Continued) support for cervical cancer prevention activities:**

Live Life Love Life Charity Foundation and Prayas have been associated for over three years and we appreciate the support that Live Life Love Life Charity Foundation has given to our work in the field of cervical cancer prevention that began in 2010.

From facilitating a grant from BMC Software, through their CSR initiative, as well as extending a donation for the Hindi dubbing of films that Prayas made on cervical cancer prevention, Live Life Love Life Charity Foundation continues to stand with Prayas against this vital fight against cervical cancer. Through our association with BMC Software, between April 2018 and June 2018, we conducted 26 cervical cancer screening camps where 922 women were screened and 17 women were treated for a positive screening test. In addition, 17 women were referred to Prayas for further treatment.

These screening camps are often conducted in our mobile clinic (donated by BMC Software) which operates as an onsite screening facility with provision for appropriate treatment in the community setting.

## Increased views for Hindi (Dubbed) films on cervical cancer prevention made by Prayas:

---

Live Life Love Life Foundation graciously gave the donation for the Hindi dubbing of the films on cervical cancer prevention. Since uploading the films on the Prayas YouTube channel in April 2018 the videos have collectively generated over 1000 views.

Prayas channel: <https://www.youtube.com/channel/UCYW7gm4LNgqeO3JXrnsgWXQ>

Hindi film on Cervical Cancer Prevention by Prayas Film 2 <https://youtu.be/MGc-tDViBE0>

Prayas remains committed to this crucial social health issue working towards creating awareness about cervical cancer prevention, providing free cervical cancer screening to women from the low socio-economic group and also treatment of cervical pre-cancer so that cervical cancer can be prevented.

### **Support for a research study for colorectal cancer screening:**

In India, colorectal cancer (CRC) incidence rates are on the rise over the last two decades. Most of the reported cases of cancers are diagnosed at very advanced stages when curative therapies are less effective. No organized screening program for colorectal cancer has been organized in India, although sporadic, opportunistic screening might occur in urban areas of the country. Given the increasing risk of CRC in India, there is a necessity to evaluate the feasibility and accuracy of CRC screening implemented through public health services as a potential CRC prevention and control initiative in the country. Live Life Love Life Charity Foundation has donated INR 500,000/- for this project and is committed to raise additional funds for this research project.

## NAG Foundation

---

### **Nag Foundation Activities April, May & June 2018**

Due to the summer vacation the number of awareness camps were less. Normally we do 2-3 awareness camps a month.

#### **Awareness Camps** -250-300 people
